

Whether or not you choose to share your reflections more broadly, hopefully these prompts will help you to recognize God's gracious stirrings in your heart this past year. 😊

*For large group time:*

- How has God met you through MTB this past year? What particular MTB teaching has been especially meaningful for you? How has God ministered to you through other aspects of MTB, such as our worship time or small groups?
- How has our focus on grace parenting this year affected your perception of your children and/or yourself as a mother? How have you sensed God working in new ways in your parenting?
- How might God be challenging you this summer?

*For small group time:*

- Same questions as above
- In addition, how do you sense that you will need God to meet you during the summer months? How can your small group be praying for you?
