

We are made for worship!

We'd love kids to participate meaningfully in Worship

Instead of a traditional Children's Sunday at the end of May, we are inviting kids to take active roles in our livestream worship services. Prelude music artists (instrumentalists) are sought, as are parent-child pairs for Prayer of Praise. While social distancing, we will need to record these to be shared.

Sign up below and further instructions will be given. One of our Tech Ministry team members can help determine the best way to submit a recording. The prelude can be audio only or recorded with video.

Kids: Share your worshipful artwork!

The imagery in Revelation - or perhaps a nature walk with your family - can lend itself to incredibly meaningful worship responses to our amazing God through artwork. Even looking out the window at your backyard might give you a unique view of our Creator's glory to capture in a drawing or painting!

Please review the tips for scanning/photographing kids' artwork before submitting. Then, share their artwork for potential inclusion in the worship service through the link below.

CM/YM survey

Thank you to those who have already completed the CM/YM survey. If you have not already shared your thoughts, we **REALLY** would love to hear from you!
